### Educational Philosophy and Objectives

Dimmick CCSD #175 is committed to being an educational leader and providing a positive and supportive environment that ensures ALL students are engaged in learning experiences that allow them to grow and achieve their dreams. The district's educational philosophy is based on the premise that instruction should develop in students:

- A desire for lifelong learning and self-improvement, an ability to think independently through the development of problem-solving and critical thinking skills and the highest level of achievement with regards to their individual abilities.
- We strive to provide the citizens of this community with the most complete educational program possible.
- We believe in the education and development of the whole child: intellectually, creatively, socially, emotionally, physically, and culturally.
- It is important for them to develop an understanding of their own personality, strengths, weaknesses, and capabilities as well as to develop ethical attitudes enabling them to exhibit respect, tolerance, kindness, and justice to others at school and in the community.
- Educational experiences should challenge students by incorporating a variety of instructional strategies that differentiate, utilize problem solving, and integrate technology, student presentations, projects, and teamwork.
- Provide an educational climate and culture free of bias concerning the protected classifications identified in policy 7:10, *Equal Educational Opportunities*.

In order for the Board to monitor whether the educational program is attaining these objectives and to be knowledgeable of current and future resource needs, the Superintendent shall regularly review adopted goals from the District's Strategic Plan including:

- A review and evaluation of the present curriculum.
- A projection of curriculum and resource needs.
- An evaluation of, and plan to eliminate, any bias in the curriculum or instructional materials and methods concerning the classifications referred to in item 8, above.
- Any plan for new or revised instructional program implementation.
- A review of present and future facility needs.

### School Accountability

According to the Illinois General Assembly, the primary purpose of schooling is the transmission of knowledge and culture through which students learn in areas necessary to their continuing development and entry into the world of work. To fulfill that purpose, the Ill. State Board of Education (ISBE) prepared *State Goals for Learning and Learning Standards*.

The School Board gives priority in the allocation of resources, including funds, time, personnel, and facilities, to fulfilling this purpose.

### Quality Assurance

The Board continuously monitors student achievement and the quality of the District's work. The Superintendent shall supervise the following quality assurance components, in accordance with State law and ISBE rules, and continuously keep the Board informed:

1. Prepare each school's annual recognition application and quality assurance appraisal, whether internal or external, to assess each school's continuous school improvement.
2. Continuously assess the District's overall performance in terms of both academic success and equity. This includes, without limitation, a thorough analysis of ISBE's balanced accountability measure and each school's *Multiple Measure Index* and corresponding *Annual Measurable Objective* provided by ISBE.
3. If applicable, develop District Improvement Plans, present them for Board approval, and supervise their implementation.
4. Prepare a school report card, present it at a regular Board meeting, and disseminate it as provided in State law.
5. In accordance with 105 ILCS 5/2-3.153, annually administer a climate survey on the instructional environment within the school to, at minimum, students in grades 4 through 12 and teachers.

- b. Each person should use the same degree of care in drafting an email message as would be put into a written memorandum or document. Nothing should be transmitted in an email message that would be inappropriate in a letter or memorandum.
- c. Electronic messages transmitted via the District's Internet gateway carry with them an identification of the user's Internet *domain*. This domain is a registered name and identifies the author as being with the District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of the District. Users will be held personally responsible for the content of any and all email messages transmitted to external recipients.

**Authorization for Access to the District's Electronic Networks Form**

Dear Parents/Guardians,

Our School District has the ability to enhance your child's education through the use of its electronic networks, including the Internet. Our goal in providing this service is to promote educational excellence by facilitating resource sharing, innovation, and communication. The District *filters* access to materials that may be defamatory, inaccurate, offensive, or otherwise inappropriate in the school setting. If a filter has been disabled or malfunctions it is impossible to control all material and a user may discover inappropriate material. Ultimately, parents/guardians are responsible for setting and conveying the standards that their child should follow, and the School District respects each family's right to decide whether or not to authorize Internet access. With this educational opportunity also comes responsibility. The use of inappropriate material or language, or violation of copyright laws, may result in the loss of the privilege to use this resource. Remember that you are legally responsible for your child's actions. If you agree to allow your child to have a network account, sign the *Authorization* form below and return it to your school.

**Students must have a parent/guardian read and agree to the following before being granted unsupervised access:**

All use of the electronic networks shall be consistent with the District's goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. **The failure of any user to follow the terms of the *Acceptable Use of the District's Electronic Networks* will result in the loss of privileges, disciplinary action, and/or appropriate legal action.** The signatures at the end of this document are legally binding and indicate the parties who signed have read the terms and conditions carefully and understand their significance.

*I have read this Authorization form. I understand that access is designed for educational purposes and that the District has taken precautions to eliminate controversial material. However, I also recognize it is impossible for the District to restrict access to all controversial and inappropriate materials. I will hold harmless the District, its employees, agents, or Board members, for any harm caused by materials or software obtained via the network. I accept full responsibility for supervision if and when my child's use is not in a school setting. I have discussed the Acceptable Use of the District's Electronic Networks with my child. I hereby request that my child be allowed access to the District's electronic networks, including the Internet.*

I further understand that should I commit any violation, my access privileges may be revoked, and school disciplinary action and/or legal action may be taken. In consideration for using the District's electronic network connection and having access to public networks, I hereby release the School District and its Board members, employees, and agents from any claims and damages arising from my use of, or inability to use the District's electronic networks, including the Internet.*
